

Markdown Conversion Test

Markdown Conversion Test

Main Heading

This is a paragraph with **bold text**, *italic text*, and `code`. This tests the basic formatting.

This paragraph has **bold text with inside it***nested italic* and also **italic text with nested bold* inside it*.

Subheading Level 2

Subheading Level 3

Here's a link to [OpenAI](#) for testing link formatting. This sentence has **bold** and a [link](#) in the same paragraph.

Lists

Unordered list:

- Item 1 with **bold text**
- Item 2 with *italic text*
- Item 3 with `code` and [a link](#)

Numbered list with formatting:

1. First item with **bold**
1. Second item with *italic*
1. Third item with `code`

List with custom numbering (should be normalized):

1. This should be properly numbered as 1
1. This should be properly numbered as 2
1. This should be properly numbered as 3

Table

Header 1	Header 2	Header 3
Bold	<i>Italic</i>	Code
Link	Mixed bold and <i>italic</i>	Data 3
Data 4	Data 5	Data 6

Blockquote

*This is a blockquote to test how blockquotes are formatted in the document.
It includes **bold text** and *italic text* to test inline formatting.*

Code Block

```
python:  
def hello_world():  
    print("Hello, World!")  
    return True
```

Image

Combined Elements

1. **Bold item** with a [link](#)
2. *Italic item* with code snippet
3. Mixed **bold** and *italic* formatting in the same line

Final paragraph with combined **bold**, *italic*, and code elements to test inline formatting handling.
